

NUMB MASTER

TOPICAL ANESTHETIC CREAM

KEY FACTS

- Liposomal Lidocaine
- Provides effective pain alleviation
- Fast Penetrating Water Based Formula
- Easy to apply and remove
- Can be used prior to microneedling, laser, waxing, electrolysis, permanent makeup, and tattoos

HOW TO USE

Apply an even layer of cream and leave on for 20-25 minutes to reach optimal numbing efficacy.

Tip: Proper occlusion is recommended to expedite the numbing process and to prevent dry-out.
